

2nd Annual
Little Red School House 5k & Fun Run
Saturday, April 17, 2010
Rogersville, Alabama

The Little Red School House is not really a school house – it is a group of individuals organized to meet the needs of children at Lauderdale County High School by providing school supplies, funding, clothing, or snacks so that children can be in school “ready to learn”. The Little Red School House recognizes that a child’s self-esteem and self-worth can be uplifted if they can be provided the essentials to be on the same playing field at school.

How does it work? Teachers at the local school find the need, communicate that need to the organization point person and the need is filled. It’s that simple: Need a coat – you have a coat. Need money for the field trip – provided. These acts are done with confidentiality and respect for the self-esteem of the child. If the child doesn’t have school supplies, the teacher visits the fully stocked supply closet at the school and provides the needed supply. This program is not advertised – it works because of the understanding between the school, the counselors, the teachers and the organization. Through these small acts of kindness, we hope to change the lives of children by showing support in their school lives.
